EDUCATIONAL QUALIFICATIONS

- **Ph.D. (1997)** , in Mechanical Power Engineering.
SUEZ CANAL UNIVERSITY, Faculty of Engineering, Port-Said, Egypt.
Under channel system with Cooperation of
BREMEN UNIVERSITY, Heat Transfer Institute, Bremen, Germany.
MAJOR : Fouling on Heat transfer surfaces in desalination systems.
Ph.D. Title : “*Crystallization Fouling inside Forced Circulation Heat Exchangers*”
- **M.Sc. 1992**, in Mechanical Power Engineering
SUEZ CANAL UNIVERSITY, Faculty of Engineering, Port-Said, Egypt.
MAJOR: Thermal Solar Energy Application.
M.Sc. Title : “*Dynamic Behavior of flat plate solar collector*”
- **G.S. 1990**, Graduate Study in Mechanical Power Engineering
MAJOR: Thermodynamics and Heat Transfer, Mechanical Power Department,
Faculty of Engineering, *SUEZ CANAL UNIVERSITY*, Port-Said, Egypt.
- **B.Sc. 1987**, in, Mechanical Power Engineering
(Very Good, first class with Honor), Mechanical Power Department, Faculty of
Engineering, *SUEZ CANAL UNIVERSITY*, Port-Said, Egypt.

ACADAMIC AND PROFESSIONAL EXPERIENCE

(December 27, 2017 - present)

- Vice President for Post Graduate and Research, Port Said University, Port-Said, Egypt.

(March, 2015 – December 26, 2017)

- Dean of the Faculty of Engineering, Port-Said University, Port-Said, Egypt.
- Visitor professor, Faculty of Engineering Science, Sinai University, Egypt.

(October, 2011 – February 2015)

- Vice Dean of Education and Students Affairs, Faculty of Engineering, Port-Said University, Port-Said, Egypt.
- Visitor professor, Faculty of Engineering Science, Sinai University, Egypt.

(April, 2011 – October 2011)

- Prof. of Thermal process and Energy Engineering, Mechanical Power Engineering Department, Faculty of Engineering, Port-Said University, Egypt.
- Visitor professor, Faculty of engineering science, Sinai University, Egypt.
- Director of Quality assurance unit, Faculty of Engineering, Port-Said University, Egypt.

(September, 2008 – April, 2011)

- Natural Gas Engineering program (NGEP) Coordinator.
- Asc. Prof. thermal energy and heat transfer, Mechanical Power Department, Faculty of Engineering, Suez Canal University, Port-Said, Egypt.

(March, 2008 – August, 2008)

- Asc. Prof. of thermal energy and heat transfer, Mechanical Power Department, Faculty of Engineering, Suez Canal University, Port-Said, Egypt.

(September, 2006 – February, 2008)

- Asc. Prof. of Mechanical Engineering, Mechanical Engineering Department, College of Engineering, Al-Qassim University, Al-Qassim, Kingdom of Saudi Arabia.

(January, 2004 –August, 2006)

- Asc. Prof. of Mechanical power engineering, Mechanical Power Department, Faculty of Engineering, Suez Canal University, Port-Said, Egypt.
- Environmental Engineering consultant and EIA Designer, part time job at Egypt Envirocon consultation office.

(October 1997- December 2003)

Lecturer of mechanical power engineering, Mechanical Power Department, Faculty of Engineering, Suez Canal University, Port-Said, Egypt.

(May 1997 – September 1997)

Ass. Lecturer in Mechanical Power Department, Faculty of Engineering, Suez Canal University, Port-Said, Egypt.

(January 1994 – April 1997)

Research Associate, Thermodynamics, Heat and mass transfer Institute, Bremen University, Bremen, Germany.

(April 1991 – December 1993)

Ass. Lecturer in Mechanical Power Department, Faculty of Engineering Suez Canal University, Port-Said, Egypt.

(March 1988 – March 1991)

Demonstrator in Mechanical Power Department, Faculty of Engineering Suez Canal University, Port-Said, Egypt.

FIELDS OF EXPERIENCE

- Refrigeration and Air-conditioning systems
- Solar Energy
- Thermal Energy and power
- Geothermal Energy applications
- Heat and mass transfer
- Natural Gas Process Engineering
- Desalination and water treatment
- Air Pollution
- Computer Application in Thermal Process Engineering
- Thermal Environmental Engineering and Modeling
- Software developing and design in the filed of experience

TEACHING EXPERIENCE

(Under-graduate)

- Refrigeration and Air Conditioning
- Thermal energy technology
- Renewable energy
- Natural Gas Process Engineering
- Heat and mass Transfer, Faculty of Engineering, Suez Canal University.
- Thermodynamics, Faculty of Engineering, Suez Canal University.
- Engineering Drawing and AutoCAD, Faculty of Engineering, Suez Canal University.
- Desalination Technology, Faculty of Engineering, Suez Canal University.
- Air-conditioning, Faculty of Engineering, Suez Canal University.
- Computer Applications in thermal process engineering, Faculty of Engineering, Suez Canal University.
- Numerical Analysis, Faculty of Engineering Suez Canal University.
- Computer Science, Faculty of Education, Suez Canal University.
- Computer Programming Languages (Fortran – Visual Basic), Faculty of Education of Art, Suez Canal University.
- Computer Graphics and Multimedia, Faculty of Education of Art, Suez Canal University.
- Engineering Drawing and AutoCAD, College of Engineering, Qassim University, Saud Arabia.
- Engineering Dynamics, College of Engineering, Qassim University, Saudi Arabia.
- Thermal power plants, College of Engineering, Qassim University, Saudi Arabia.
- Natural gas process engineering, NGEP, Port-Said University, Egypt.
- Natural gas transmission technology, NGEP, Port-Said University, Egypt.

(Post-Graduate)

- Computer Application in Mechanical Power Engineering, Faculty of Engineering, Suez Canal University.
- Turbulent flow, Faculty of Engineering, Suez Canal University.
- Ventilation Technology, Faculty of Engineering, Suez Canal University.
- Air-Conditioning Loads, Faculty of Engineering, Suez Canal University.
- Heat Transfer by Convection, Faculty of Engineering, Suez Canal University.

CONSULTING AND STUDIES ACTIVITIES

- Study of reducing the fouling inside evaporators tube, Heat Transfer Institute, Bremen University, Krupp Atlas, Germany, 1994.
- The fouling Behavior inside a falling film Evaporators with fluted design, , Heat Transfer Institute, Bremen University, Krupp Atlas, Germany, 1994-1995.
- Study of the energy consumption for Port-Said city, Center of public service, planning and study, Faculty of engineering, Suez canal university, port-said, with cooperation with Energy planning center – Electricity Ministry,1997.
- Testing the hydraulic performance of imported irrigation water pumps, Pumps test Unit, Center of public service, planning and study, Faculty of Engineering, Suez Canal University, Port-Said, 1998.
- Design of an action plan for waste management of west Port-Said Gas treatment Plant (AMOCO British Petroleum), Public Service Center for Training and Studies, PSCTS, Faculty of Education, Suez canal University, Port-Said, 1999.
- Pollution Level Measurements (Environmental Logbook) of SHIBAA Garments Factory, Energy research and studies Center, Faculty of Engineering, Suez canal University, Port-Said, 2000.
- Teaching Computer science, Public Service Center for Training and Studies, PSCTS, Faculty of Education, Suez Canal University, Port-Said, 1999-present.
- Teaching CAD and Computer science, Center of public service, planning and studies, Faculty of Engineering, Suez Canal University, Port-Said, 1998-present.
- Environmental Impact Assessment, Steel Pipe Factory at Northern Port-Said, EGYPT, Submitted to EEAA, August 2001.
- Assessment of the Environmental Conditions of Barge PJ-11, Submitted to Petroleum Marine Service Company, Nov. 2001.
- Assessment of the Environmental Conditions of Barge PJ-13, Submitted to Petroleum Marine Service Company, January 2002.

- Environmental Impact Assessment, Kapci Coatings Company, Port-Said, EGYPT, Submitted to EEAA, June 2002.
- Design of the Fire Alarm system for the Ismailia Campus of Suez canal University, Center of public service, planning and studies, Faculty of Engineering, Suez Canal University, Port-Said, 2002.
- Design of the Fire Fighting system for the Ismailia Campus of Suez canal University, Center of public service, planning and studies, Faculty of Engineering, Suez Canal University, Port-Said, 2002.
- Environmental Impact Assessment, Alsukhna Direct Reduction Iron Plant (locate at south Suez, Egypt), National Authority for Remote Sensing and Space Technology, NARS, Cairo, Egypt, Submitted to EEAA, 2003.
- Design An Air Dispersion Model (ADM) for Al-Sukhna Direct reduction Iron Plant (locate at south Suez, Egypt), National Authority for Remote Sensing and Space Technology, NARS, Cairo, Egypt, Submitted to EEAA, 2003.
- Evaluation the performance of the water solar heating system of the university campus in Isamilia, Center of public service, planning and studies, Faculty of Engineering, Suez Canal University, Port-Said, 2003.
- Fishing and shipping activities in offshore Port-Said region report, Offshore North Sinai natural gas company (ONS), Egypt Envirocon Environmental Consultant, Port-Said, Egypt, 2004.
- Preliminary EIA Study , Offshore North Sinai natural gas company (ONS), Egypt Envirocon Environmental Consultant, Port-Said, Egypt, 2004.
- Design of the Fire alarm and Fighting systems for the El-Arish Campus of Suez canal University at El-Arish, Center of public service, planning and studies, Faculty of Engineering, Suez Canal University, Port-Said, 2004.
- Inspection of the operating conditions of the irrigation pumps for south port-said company, Center of public service, planning and studies, Faculty of Engineering, Suez Canal University, Port-Said, 2004.
- Study of the sand encroachment hazardous on the onshore central processing facilities (CPF), Offshore North Sinai natural gas company (ONS), Egypt Envirocon Environmental Consultant, Port-Said, Egypt, 2004.

- Fishing activities in offshore Abu–Qair Bay study, Egypt British Petroleum company, Egypt Envirocon Environmental Consultant, Port-Said, Egypt, 2004.
- Environmental Impact Assessment study (EIA), Offshore North Sinai natural gas company (ONS), Egypt Envirocon Environmental Consultant, Port-Said, Egypt, 2005.
- Air Quality and noise Evaluation at the west Port-Said industrial zone, Submitted to Port-Said Governorate and Egyptian Environmental Affaire authority (EEAA), 2005.
- Design An Air Dispersion Model (ADM) for west Port-Said industrial zone (locate at Port-Said, Egypt), Submitted to Port-Said Governorate and Egyptian Environmental Affaire authority (EEAA), 2005.
- Assessment of the Productivity of El-Nasr Pilot Solar Plant Cairo, Egypt, Submitted To: The New & Renewable Energy Authority (NREA), Ministry of Electricity, November 2005
- El-Nasr Solar Pilot Plant Performance Simulation, Cairo, Egypt, Submitted To: The New & Renewable Energy Authority (NREA), Ministry of Electricity, January 2006.
- Environmental Impact Assessment of El Karwan Resort, Egypt Envirocon Environmental Consultant, Port-Said, Egypt, 2006.
- Quality and Accreditation of the undergraduate curriculum of the mechanical power engineering department, faculty of engineering, Suez Canal University, Port-Said, Egypt.
- Developing the curriculum and the management regulations of the new department of natural gas production engineering at faculty of engineering, Suez Canal University, Port-Said, Egypt, April 2006.
- Technical consultant of the RO desalination plant at ElMaghara, North Sinai Governorate, Egypt, May 2006.

- Supervising of the constructing of the Power station and renewable energy labs, College of Engineering, Qassim University, Kingdom of Saudi Arabia, October 2006.
- Developing the active learning courses for engineering educational, College of Engineering, Qassim University, Al-Qassim, Kingdom of Saudi Arabia, December 2006.
- Developing the Msc. Post graduate program, College of Engineering, Post Graduate Council, Qassim University, Qassim, Kingdom of Saudi Arabia. February 2007.
- Design and operation simulation of steam generation solar Plant in Al-Qassim - Kingdom of Saudi Arabia, University indoor project fund, Research Deanship, Qassim University, Al-Qassim, Kingdom of Saudi Arabia, March 2007.
- Design Criterion of water desalination system driven by the available geothermal energy in Kingdom of Saudi Arabia, University indoor project fund, Research Deanship, Qassim University, Al-Qassim, Kingdom of Saudi Arabia, October 2007.
- Simulation model for Solar Desalination using Humidification Dehumidification process Under Al-Qassim Meteorological Conditions, University indoor project fund, Research Deanship, Qassim University, Al-Qassim, Kingdom of Saudi Arabia, January 2008.
- Design of the Fire alarm and Fighting systems for the New extension and buildings of Suez canal University at Ismailia, Center of public service, planning and studies, Faculty of Engineering, Suez Canal University, Port-Said, September 2008.
- Medical Incineration system for the main university hospital, Center of public service, planning and studies, Faculty of Engineering, Suez Canal University, Port-Said, October 2008.
- Design of the animal house central air-conditioning and duct systems, faculty of medicine, Suez Canal University, March 2009.

- Training course for fresh engineers at SEGAS, Center of public service, planning and studies, Faculty of Engineering, Port-Said university, February - March 2009.
- Developing a Framework and data-base for the integration of university researchers in the industry, Port-Said university, RDI, ministry of higher education, Egypt-European Union, August 2009-May 2010.
- Environmental Impact Assessment of west Port-Said new Industrial region, Center of public service, planning and studies, Faculty of Engineering, Port-Said university, submitted to (EEAA). Port-Said, August 2010.
- Training course for fresh engineers at SEGAS, Center of public service, planning and studies, Faculty of Engineering, Port-Said University, February - March 2011.
- General Plan for Environmental Framework – Port-Said Governorate, Center of public service, planning and studies, Faculty of Engineering, Suez Canal University, Port-Said, April 2011.
- Training course for fresh engineers at SEGAS, Center of public service, planning and studies, Faculty of Engineering, Port-Said University, February 2012.
- Solid waste management system for Port-Fouaad city, Environmental and public service sector, Port-Said University, May 2012.
- Research, Development and Innovation Programme (ENPI/2010/21866), RDI Programme (Phase II), For the Assessment of Scheme1 Concept Notes, Call for Proposals: EuropeAid/127054/C/SER/multi, 8-10 July 2012.
- Environmental Impact Assessment of Solid waste Incineration Site at south Port-Said, Center of public service, planning and studies, Faculty of Engineering, Port-Said university, submitted to (EEAA). Port-Said, December 2013.
- Environmental Impact Assessment of Idrak Institute at west Port-Said, Center of public service, planning and studies, Faculty of Engineering, Port-Said university, submitted to (EEAA). Port-Said, December 2014.
- Environmental Impact Assessment of Construction and Operation Elkournish Road at Port-Said, Center of public service, planning and studies, Faculty of Engineering, Port-Said university, submitted to (EEAA). Port-Said, March 2015.
- Dsfghth

- Study of Developing measurement system for water source of Suez Canal Terminal company, east Port-Said, Center of public service, planning and studies, Faculty of Engineering, Port-Said university, submitted to (EEAA). Port-Said, July 2015.
- Planning of New Campus of Port-Said University, August 2015.
- Design of the Fire Fighting systems for the Faculty of Medicine, Port-Said University, Center of public service, planning and studies, Faculty of Engineering, Suez Canal University, Port-Said, January 2016.

COMPUTER EXPERIENCE

- Considerable experience with thermodynamics, fluid mechanics, and heat transfer codes and software.
- Experience with water properties and others working medium's properties codes: WINWASP, GASPROP5, and others.
- Extensive experience with AutoCAD.
- Extensive use of general-purpose finite-element and finite-difference codes.
- Considerable experience with CFD codes and software (PHOENIX).
- Considerable experience with EPA standard Air Pollution dispersion models (ISC, and AERMOD).
- A working knowledge with most computer operating systems including, Unix, DOS, Windows and other system utilities.
- A working knowledge with many software in different applications including, MS office, Data base software(Access-dbIII), spread sheets (Excell-Lotus), graphics data analysis (grapher - surfer-3d view- and many).
- Considerable experience with the most Internet Utilities and software (MS internet explorer, front Page, Ms outlook, etc.)
- Experienced in coding with FORTRAN and Visual Basic.
- Air Conditioning software, HAP4, Elite, Maqcwue

SUPERVISION OF THESIS AND DISSERTATION

S.N.	Title of theses or dissertation	Degree Awarded	Author
1	Heat Transfer and Pressure Drop for Double Tube Heat Exchanger with fluted surface.	Master, 2001	Eng. Rasheid Hotteiba
2	Hot Air Sparging of Soil Contaminated with Petroleum Oil.	Master, 2004	Eng. Amany Saif
3	The performance of solar-assisted combined cycle power plants under part load condition	Master, 2006	Eng. Mohamed Gaber
4	Experimental and numerical study of the heat transfer and fluid flow inside ribbed corrugated passages	Ph.D., 2008	Eng. Rashid Hotteiba
5	Control of Aeolian Sand Transport using Constant and Variable Porosity Wind Fences	Ph.D., 2011	Eng. Amany Saif
6	A Comparative Study of Integrated Coal Gasification Combined – Cycle Power Plants (ICGCC) with Kalina Cycle	Master, 2013	Eng. Mostafa Okily
7	Simulation Study of Screw Micro Pumps Design and Performance	Master, 2014	Eng. Alaa Ezzat
8	Effect of Rotation on Heat transfer inside tubes	Ph.D., running	Eng. Reyam Mahfoz
9	Performance and characteristics study of hybrid desalination system driven by solar energy	Master, Runnin	Eng. Asmaa Rashid
10	Enhancement of Solar Still Performance and Productivity	Master, Runnin	Eng. Islam Amin
11	Heat Storage system using PCM	Master, Runnin	Eng. Mohamed Elkhodary
